Graduate in Information Systems and Management from Bina Nusantara University (2022) with a strong foundation in business intelligence, IT systems. Experienced in turning business requirements into actionable insights using tools like Qlik Sense, SQL, and Excel. Currently building foundational skills through self-study and practical labs focused on web vulnerabilities and ethical hacking. Open to opportunities as a Business Intelligence Specialist, IT Associate, or Junior Pentester (Penetration Tester) where I can combine my analytical background with a passion for system security and continuous learning.
